B. Write down your suggestions for the improvement of the infrastructure of the department (books, computers and number of permanent faculty) 28 responses

Books

More smart classes

Proper Offline classes and communication with teachers will be really effective
Smart classes and easy access to online essays
number of permanent faculty
I have no suggestions. All infrastructures are good.
Our department is so good. My teachers are always communicated with me. They always guide me about my studies.
Very good. Satisfied.
In my opinion needn't any improvement
Nothing
We need more smart classes for our development and more books in library for study materials.
Smart class
Books.
It will be helpful to us if the teacher provides study material in class.
It will be helpful to us if the teachers provide study material in class.
It will be helpful to us if the teachers provide us study material in class
The college should make arrangements to keep more books in the library
Computers
All study materials which are needed already provided to me by our professors. I don't need any anything as of now.
It's good and teachers are very helpful
No need
I need more books in library to help for study
Number of permanent faculty
We need a smart classroom.
Maybe access to smart class as well

OBSERVATIONS:

From the pie-diagrams charted above, it is evident that the students are satisfied with the teaching-learning processes followed by the faculty of the Department of English. The students seem to have engaged themselves in participatory learning and experiential learning while understanding the interdisciplinarity of language, literature and culture. The students have appreciated the method followed while they have been taught in class and an evaluative method followed simultaneously. The students' feedback indicate their quest for more knowledge in an inter-disciplinary subject like English/World Literature as they have expressed their requirement for more e-books, e-journals, smart classes and resource persons/ permanent faculty.
