49 responses

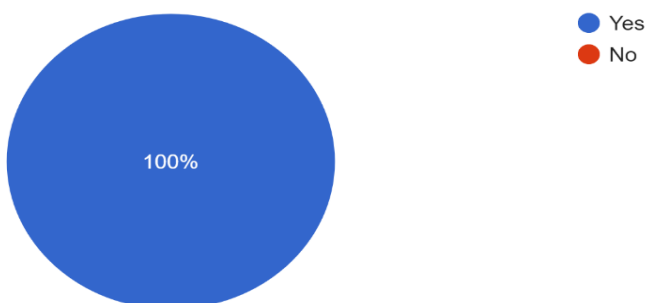

2. How far your Faculty and Laboratory staff were helpful and supportive?

49 responses

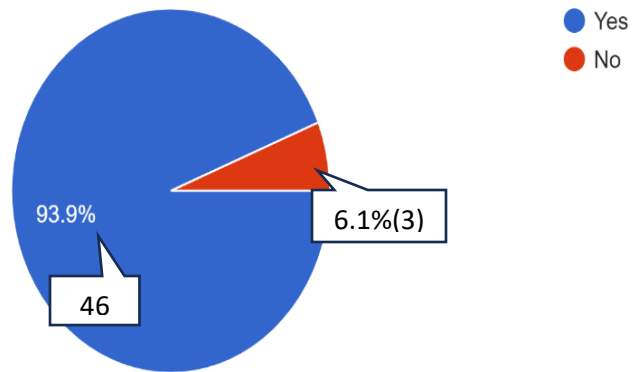

4. Did your teachers encourage you to participate in field study/excursions?

49 responses

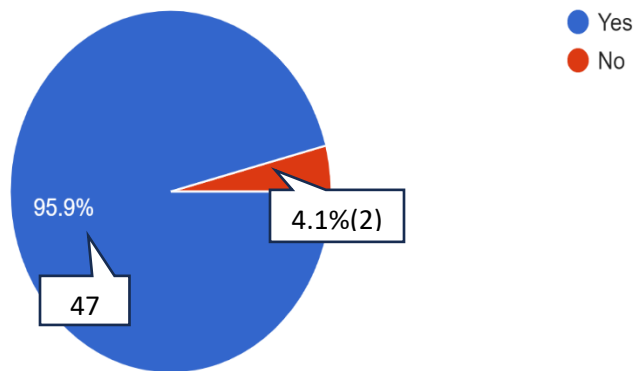

5. Did your teachers encourage you to participate in extra curricular activities?

49 responses

6. Did your teachers provide counseling/ guidance towards higher studies and/or employment?

49 responses

Conclusion:

- 49 responses are recorded from this survey.
- 98 % students confirm that they are satisfied with the teaching learning process of the department and the faculty members along with the laboratory staffs are cooperative.
- All the respondents ensure that the department conducts educational excursions/field visits as per syllabus.
- 93.9 % of the respondents feel they have received motivation from their teachers to participate in extra-curricular activities .
- 95.9 % of the participants confirmed they have received guidance towards higher studies and employment by their teachers.
- The survey indicates students are satisfied with the department. However the department acknowledges the suggestions given by the students for its further development like arranging ICT enabled classrooms with smart boards, projectors, microscopes with camera, more specimens and some more books in the departmental library.

Suggestions given by students:

- Departmental Library should have more books.
- More specimen should be provided in the departmental museum.
- Arrangement of more number of smart classrooms.
- Addition of more streams like chemistry in our college.
