Human Development is a measurement of achievements by humans through advancement of knowledge , biological changes, habit formation or other changes that displays changes over time .It is reflected only when marginalized groups are highlighted and actively involved in planning, execution and monitoring of developmental programmes of a Nation.

Human Development is much more than economic growth, which is only a means of enlarging people’s choices. Fundamental to enlarging these choices is building human capabilities.”

It is reflected when marginalized groups are highlighted and involved in planning, execution and monitoring of developmental programmes of a Nation.

# Human Development Index

HDI as formulated by UNDP, another measure of HDI is Gender empowerment measure (GEM )

## Six Basic Pillars of Human Development

- 1) Equity
- 2) Sustainability
- 3) Productivity
- 4) Empowerment
- 5) Co-operation
- 6) Security

# Human Rights and Human Development

- 1) Encourages Better living conditions
- 2) Better condition at work
- 3) Focuses on Health and Human Development
- 4) Sustainable Environment.

## Millenium Goals as set by United Nations in September 2000

- 1) Eradication of Poverty, Hunger
- 2) Achieve Universal Primary Education
- 3) Reduce Child Mortality
- 4) Improve Maternal Health
- 5) Combat HIV AIDS
- 6) Malaria
- 7) Ensure environmental stability
- 8) Develop Global Partnership for Development

**INCLUSIVE DEVELOPMENT**-Is again is a pro-poor approach that equally values and incorporates the contributions of all stakeholders ,including the marginalized groups in addressing developmental issues. It promotes transparency ,accountability, enhances development ,cooperation outcomes through collaboration between civil society, governments, private sectors.

Human Development approach integrates standards and principles of human rights and participation, non discrimination and accountability which is again inclusive development a major factor for human development. So, inclusive development positively contributes to human development and one of the major factor. Both inclusive development and human development go hand in hand toward nation building. The issues of inclusive development are highlighted for human development and looked into from all layers of the society.

**UNDP WORKS WITH DEVELOPING COUNTRIES TO  
IMPROVE INCLUSIVE DEVELOPMENT POLICIES**

**Provides advice in areas as strategies,  
job creation social safety nets.**

**UNDP ADVOCATES FOR STRONGER ROLE OF THE  
STATE, ENHANCED PUBLIC INVESTMENTS AND ECONOMIC  
GOVERNANCE—To ensure that everyone has access to  
vital public services.**

## **GENDER AND POVERTY REDUCTION-**

Equality between men and women is more than social justice ,it is fundamental human right.

When women have equal access to education, go participate fully in business and economic decision making ,they are driving force against poverty.

Gender equality and women empowerment is central to achieving Millenium Development Goals(MDG's)

**GENDER EQUALITY IS A CONDITION FOR INCLUSIVE,DEMOCRATIC,VIOLENCE FREE AND SUSTAINABLE DEVELOPMENT.**

**RIGHT TO EDUCATION AGAIN IS UNIVERSAL BUT FALLS WITHIN INCLUSIVE EDUCATION PURVIEW AS MARGINALISED AREAS OFTEN LEFT BEHIND BY NATIONAL AND EDUCATIONAL POLICIES DENYING MANY PEOPLE RIGHT TO EDUCATION**

Education has much wider impact than simply improving earnings or employment opportunities, which is why it is a component of human development index.

Today's innovation results in production of sharing and collaboration.

Schools need to incorporate this new reality into curriculum, to work across cultures and equipping them for a world shaped by issues that transcend national boundaries.

**PROMOTING SKILLS ORIENTED LEARNING**-Learning has to be integrated into work place. It allows young people to develop hard skills on modern equipment and soft skills including team work, communication, negotiation through real world experience.

## **ANOTHER IMPORTANT POLICY APPROACH IS ACTIVE INTERVENTION IN LABOUR MARKET-**

Education system will have to pivot to foster entrepreneurship and offer better vocational training.

## CONCLUSION-

To sum it up, we can rightly say that inclusive development falls within the paradigm of human development .Some major inclusive developmental issues like poverty, inequality of gender, women empowerment as eradicating gender inequality, right to education have always been a topic for discussion but are recently focused upon completely in the millennium goal to achieve human development through inclusive development
