

## INDUSTRY VISIT (TCG LIFE SCIENCES)

(JUNE 2019)

### DEPARTMENT OF PHYSIOLOGY

To acquaint the students of Biological Sciences with occupational opportunities, the Career Counselling and placement cell of the institution organized a 2-day Industry Visit to 'TCG Life-Sciences', Salt Lake, Kolkata, a well-known corporate R & D firm in the field of Life-Sciences. Two honours students from Department of Physiology were recommended for the event. The visit offered new insights into the cutting-edge technologies adopted in corporate research laboratories and current trends of life science research around the world. The firm responded kindly to the request made by our institution and released funds as part of their CSR scheme to buy instruments and chemicals to be used in the Central Instrumentation Centre of our institution. Department could avail this wonderful opportunity to send two UG Honours students (Nabanita Das & Ranita Chakraborty) to the prestigious TCG Life Science, Kolkata in June, 2019.

DATE	NAME OF STUDENT	STREAM	CLASS
JUNE 2019	NABANITA DAS	PHYSIOLOGY HONOURS	2 <sup>ND</sup> YEAR
	RANITA CHAKRABORTY	PHYSIOLOGY HONOURS	2 <sup>ND</sup> YEAR
