

PROGRAMMES INITIATED FOR SLOW LEARNERS

Generally a normal class comprises of Superior, Bright, above average, Average and Below Average students. Below Average ones sometimes comprises of slow learners and learning disabled students, which are few in numbers. They generally tend to be distracted, with less attention span, cannot follow instructions given in class. These students need supportive environment, extra classes, remedial classes, hand holding by the teachers and also mentoring and counselling. In our Department we practice the continuous rotation method of sitting arrangement for the students, students are also given study materials by the teachers and given books from the departmental library. Parent Teacher Meeting is also regularly held to keep in touch with the parents as well as their observations are noted down and communication are maintained with them. Drilling method is used or rote learning is encouraged for them.

They are assessed on a regular basis through their attendance, response in class, class work, question answer sessions as well as their performance in examinations or tests. They are also assessed through a mentor- mentee format which is followed by all teachers. Their problem areas are identified through mentoring on one to one basis by the departmental teachers unanimously and actions are taken for their improvement in academics which we find as in the reflection of their good result later on. They are encouraged and supported all the time by the departmental teachers. These students are given 1 Hour per week per teacher for identifying their problem areas and given adequate support through extra classes and mentoring to bring them at par to some extent with the normal students

The chart below shows some of the average students mentored from the beginning securing good results at the end of the session 2017 - 2018.

SERIAL NO.	CALCUTTA UNIVERSITY ROLL NO,	COLLEGE ROLL NO	PART-1 MARKS 2017 - 2018	PART-2 MARKS 2018 - 2019	PART- 3 MARKS 2019 - 2020	TOTAL	PERCENTAGE
1	2413-51-0086	439	76= 38%	101= 50.0%	273= 68.25%	450	56.25%
2	2413-51-0080	194	72= 36%	107= 53.5%	228= 57%	442	55.25%
