## NATIONAL SCIENCE DAY, 2022

28<sup>th</sup> February is the National Science Day. On this auspicious day a student seminar was organized by department of Biological Science and IQAC of Dr. Kanailal Bhattacharyya College. At the beginning, Dr. Madhumita Debnath, Head Department of Physiology delivered a keynote address on National Science Day. Here, students of 6<sup>th</sup> Semester shared their vision on different aspects of science. In this seminar there were four presenters. The presentations were good enough and other participants felt enriched with some knowledge. As the theme of National Science Day, 2022 was "Integrated Approach in Science and Technology for a Sustainable Future" our first presenter Olivia Manna, student of Semester VI, Botany Honours presented on "Plant tissue culture: A way of plant propagation and species conservation". This presentation was followed by another talk on "Stem cells in regenerative therapy" by Swagata Parui, student of semester VI, Zoology Honours. The third presenter Trisha Dey presented on a very relevant topic in this present situation i.e., "COVID- 19 vaccine". The next talk was on "Snake venom" by Swagata Khanra, student of B.Sc. General Semester VI. They presented in a lucid way. After completion of these presentations, there was a question answer session. This session was followed by certificate distribution among all the presenters and participants.

Seminar On

*"Forest and Wildlife in India: Ecological Perspective"*

Date.....

Speaker: Prof. Susanta Kumar Chakraborty,  
Department Of Zoology, Vidyasagar University

Date: 23.04.2022

Venue: College Auditorium

Time: 12 Noon

Forests serve as a natural habitat for wildlife and a wide variety of plants. India is not only famous for its architecture and cultural values but also for its diverse wildlife and dense forest cover. Forests are among the most species-rich environments on earth, making them critical reservoirs for many groups of living organisms ranging from vertebrates to microbes. India is one of the ten most forest-rich countries in the world with a sum cover assessed at 21.05% of the country's geographical area. More than 45,000 floral and 81,000 faunal species are found in forest. The nation has 691 protected areas comprising of 528 wildlife sanctuaries, 102 national parks, 57 conservation reserves and 4 community reserves.

Major types of forests are tropical evergreen forests, tropical deciduous forests, tropical thorn forests, montane forests and mangrove forests in India. The range of these forests is very vast, extending from the rain forests of Kerala in the South to the Alpine Pastures of Ladakh, from the desert of Rajasthan in the West to the evergreen forest in the North-East. Forests are very useful for maintaining the ecosystem. They help to modify the local climate, control soil erosion, regulate stream flow, support wood-based industries, support the livelihood of many communities. They also reduce the force of wind and thus reduce the effect of storms, maintain temperature and cause rainfall. They provide humus to the soil and shelter to wildlife thus preserving bio-diversity. India's rich and diverse wildlife is also preserved in its vast forest expanse. Bengal tigers, deers, pythons, wolves, foxes, bears, crocodiles, camels, monkeys, snakes, the mighty Asian elephant and variety of other species are found in this nation. Around 172 or 2.9% of the endangered species including the Snow leopard, the Indian white-rumped vulture etc which are on the edge of extinction, are still found in the country. The varied and rich wildlife of India has a profound impact on the region's popular culture. There is an intrinsic relationship between organisms and their habitats, which is one reason environmentalists are deeply concerned about the destruction of habitats, such as deforestation.

Factors responsible for wildlife depletion

## World Environment Day

5.6.22

World Environment Day was celebrated by planting saplings in the college garden. Officials of State Bank of India in collaboration with Dr.Kanailal Bhattacharyya College took the initiative of planting saplings and trees on the Occasion World Environment Day, thus creating the awareness of making the environment and surroundings green and clean. Plants like lemon and pear were planted planting of trees and saplings helping maintaining the Eco-System. Students were made aware of planting trees and maintaining Eco-Friendly Atmosphere for their future.

College principal Dr.Kaustubh Lahiri and SBI Ramrajatala Branch Manager Mr.Ranjan Lahaalong with Deputy Manager Tanusree Chowdhuryplanting saplings on the occasion.
