## 7.1.2 Report on the Facilities Provided

### Point 1

#### Alternate sources of energy and energy conservation measures

##### Facilities provided in wheeling to Grid System

This project was meant to be upgraded by connecting through wheeling to the grid system. This system has been installed by CESC for supplying enough electricity to meet the requirement of electricity of the college.

##### LED bulbs & lights

The college has been using LED bulbs and tube lights in the office rooms, some laboratories and classrooms of the college as an effective measure of energy conservation.

### Point 2

#### Management of the various types of degradable and non degradable waste

The College works for waste management in a proper way:-

##### Solid Waste Management

Solid waste is segregated. We keep bins on each floor in classrooms, laboratories and toilets. During college hours, students and staff throw the waste materials inside the bins. Solid and liquid wastes generated in the science laboratories are collected separately and disposed off separately.

##### Liquid Waste Management

Liquid waste mainly consists of waste water and liquid chemicals. Wastewater of toilet of the campus is disposed off through a developed drainage system and pipelines into the high drain.

## E- Waste Management and Waste Recycling

E- Waste describes electrical and electronic waste which are non repairable and non usable in future. These are computer monitors, printers, scanners. Keyboards, mice, cables, cartridge, circuit boards, calculators, electric bulbs and other materials and electronic components like diodes, transistors, resistors, capacitors, wires etc. All the E- wastes are collected by the college and dumped separately.

### **Point no. 3**

#### Bore well

This Bore well pump was constructed in the year 2019 inside the college premises, of our science block. The main purpose behind the construction of the well was to fulfill the demands of water crisis. In the local areas, there is a huge crisis of water availability and so is it in the college premises. To fulfill the demands of water crisis, this well was eventually established. This well was also built to fulfill the needs of using water for carrying out chemical experiments in the science laboratories.

### **Point no. 4**

#### Green Campus Initiatives

To promote a green campus in the college, several initiatives have been taken:-

1. **Plastic Free Zone** - The College has taken many measures to make the campus plastic free.
2. **Friendly pathway**- A friendly pathway has been provided for the students and staffs of the college to ease their movement from one building to another. It has also been kept in mind to keep the path very clean and tidy.
3. **Landscaping with trees and plants**- The college campus is filled with trees and plants in order to promote the significance of nature and greenery in our daily life.

## Point no. 5

### Disabled Friendly, Barrier free environment

To help the disabled and the handicapped, several initiatives have been taken in the college facilities:-

### Infrastructural support

1. **Lift-** A lift is provided in the main block.
2. **Ramps-** There are two ramps, one in the main block and one in the science block so that the disabled students can easily travel by using them.
