Sub: Orientation Programme on Social Entrepreneurship

Respected Sir,

As you already know Global Links programme is a three-phase cross-cultural exchange programme for fostering social entrepreneurship knowledge and skills of female professors and their students in emerging economies.

As the Second Global Links scholar from India, I have to complete Phase I of the programme in Rollins College, USA. In Phase II, my endeavor is to involve interested students from B.Com courses of your college to the emerging discipline of Social Entrepreneurship. With your help and support I would like to work out a plan for an experiential learning programme which the students may voluntarily participate without disturbing their regular academic responsibilities. For enabling their hands on practice of skills gained in their B.Com programme, Global Links has to sign a MOU with some NGO, whereby they will facilitate this handholding between June to December, 2017.

All expenses in this connection will be borne by Global Links; the students will be given no remuneration and as the Global Links scholar, I shall be responsible for the supervision of handholding activities. I may request you to delegate one teacher from your College who will voluntarily supervise this experiential learning programme of the students.

I would thus request you to allow me to facilitate the execution of phase II of the Global Links programme. On completion of phase II, the selected participants will be able to undertake a practicum of 2 weeks in spring 2018 in Rollins College, Florida, USA.

Thanking you,
Yours Sincerely,

Rumpa Chakraborty
